

EVlink™

electric vehicle charging station

Reliable, fast, and personalized charging for your electric vehicle.

Schneider
Electric™

EVlink Chargers

EVlink™ Level 2, 30 Amp charging stations are quick to install, user-friendly, and provide a convenient home, or small and medium business-based electric vehicle charging solution for indoor use.

EVlink chargers are designed to offer unlimited charging on a daily basis, and are equipped with advanced electrical protection to keep you safe. Enjoy simple, one-touch programming that makes charging a breeze and delivers smart savings.

Questions about Charge Time?

Level 1	Home Outlet	Trickle charge – slowest charge available
Level 2	16 Amp	Slightly faster charge rate
Level 2	30 Amp	Charges about twice as fast as a Level 2, 16 Amp charging station
Fast Charge	Provides 80% of battery charge in about 30 minutes for commercial use.	

“EVlink charging stations are well designed and work flawlessly.”

– Residential Electric Vehicle Owner

Plug in to Innovation.

Check out the federal and local incentives in your area to further increase your energy and cost savings. Visit www.afdc.energy.gov.

Charge faster. Charge ea

Introducing a first for charging stations...

EVlink skins!

A row of five different EVlink skins. From left to right: a dog on a blue slide, a textured grey surface, a vibrant sunset, a green tree in a field, and a family of four playing in a park. A blue curved graphic element is on the right side of the block.

sier. Charge with style.

— Interface

- User-friendly **LED display** shows if the vehicle is charging and for how long it has charged.
- **Stop button** and indicator lights identify if the charger is ready to use or requires attention.
- **Delay button** and indicator lights display if charging has been programmed for a later time and length of the delay.

— Enclosure

- **Space-saving**, flexible design.
- **Easily mounts** on stud, drywall, or masonry wall.
- **Customizable** with your choice of EVlink skin!

— Connector and cord

- **Connects** to any electric vehicle.
- 18 ft cable (5.5 meters).

— Docking port and cable holder

- Design supports flexible mounting and protects plug.
- Supports and helps organize the cable.

Protection

- Highest level of **safety** for users.
- Ensure your car continues to charge after a power outage or fault with auto restart feature.

Personalize your EVlink!

Upload your own photos and create a skin to personalize and protect your EVlink charging station or choose from an online library of designs that includes photos, patterns, backgrounds, and more!

Installation for your EVlink Charger

EVlink chargers can be easily mounted on stud, drywall, or masonry wall in your garage. For quick, dependable installation and service support for your EVlink charging station, contact a certified EcoXpert electrician. When your EVlink is installed by an EcoXpert, you'll receive an exclusive extended warranty.

Visit www.SEreply.com and enter key code **m224v** to find a certified EcoXpert contractor near you.
